

CHANGE REQUEST FORM

Change Description		
Project Name: Dimspace	Change Name: User Authentication/ Notification	Number: 01
Requested By: Kjartan Einarsson	Contact: kjartaneinarsson@uvic.ca	Date: 26/02/2023
Description of Change: User Authentication/ Profile / Notification <ul style="list-style-type: none">• User Profile: We want to allow a user to create a profile where they can add their personal information, such as name, email address, and profile picture.• Authentication layer included with the "User Profile" would help prevent unauthorized access of the "Instructor" accounts and improve the security of the system.• Notifications: We want to implement a notification system that will notify users when they receive new messages, notifications about marks, comments on assignments.		
Reason for Change: <p>We believe that these changes would improve the user experience on the application and provide important features and functions of the system. User definition is important to tracking User types and profiles. It is vital for the system to function properly. Notifications are helpful for user engagement and keeping them informed about activity on the platform.</p>		
Priority [Circle One]: 1. High 2. Medium 3. Low		
Impact on Deliverables: <p>This may impact the deliverables and deployment by 4-6 weeks.</p>		
Impact of Not Responding to Change (and Reason Why): <p>Not responding to this change could result in massive malfunctions to the applications. User authentication is vital to the systems security.</p>
